

# L.U.A. CERTIFICATE

**The Satte president of the Life Underwriters' Association of Australia, Mr Brian Jones, yesterday presented the first LUA affiliate certificate in Rockhampton.**

It was received by a city insurance executive, Mr Bob Ross, pictured with Mr Jones (right).

A spokesman said the presentation of Mr Ross' certificate highlights the recent formation of the Rockhampton branch of the Life Underwriters' Association, Queensland division.

This presentation is the first of its kind in Rockhampton, but the association is looking forward to it being the forerunner of many more to follow within the life assurance industry operating in the Central Queensland area.

Additional presentations are envisaged to take place at a proposed Central Queensland life insurance seminar to be held at the Capricornia Institute of Advanced Education in November of this year.

The Life Underwriters' Association is the only

international recognised performance in the life professional association for assurance industry with life insurance salesmen and strict qualifications for membership can only be membership, the spokesman said.
